CITY OF LODI COUNCIL COMMUNICATION

AGENDA TITLE: Adopt Resolution Awarding a Contract for the **Installation** of Automated Residential Electric Meters to Republic Intelligent Transportation Services, Inc. of Novato, CA (\$88,068) (EUD)

MEETING DATE: November 19, 2008

PREPARED BY: Electric Utility Director

RECOMMENDED ACTION: Adopt a resolution awarding a contract for the installation of automated residential electric meters by Republic Intelligent Transportation Services, Inc. (Republic ITS) of Novato, California in the amount of \$88,068.

BACKGROUND INFORMATION: On September 17, 2008, the City Council approved the bid specifications and authorized the advertisements for bids for the installation of 8,200 automated residential electric meters.

The Electric Utility Department (EUD) advertised bid documents and staff received bid proposals on October 29, 2008 with the following results:

Republic ITS, Inc., Novato, CA	\$ 88,068
Wilson Electrical & Data, Valley Springs, CA	\$ 99,958
Geigle Electric, Stockton, CA	\$164,000
Best Electric, Modesto, CA	\$198,850
Delta Electric, Lodi, CA	\$328,000

Staff evaluated the proposal of Republic ITS to be compliant with the bid documents. Republic ITS recently completed the installation of 1,000 automated residential electric meters for EUD during September 2008. The meter installation work requires close coordination between EUD's Metering Section, the Finance Department, the IS Department and EUD's Field Services Section as well as the ability to interface with customers. Republic ITS performed exceptionally well in all respects during that 1,000 meter installation project. Furthermore, they have been working with the City of Lodi on traffic light maintenance which gives them familiarity of the City's contractual and work processes.

Approximately 8,200 automated residential electric meters have been purchased from Itron of Spokane, Washington. This purchase was based on Resolution No. 2005-54 dated April 6, 2005 wherein the City Council approved the standardization of solid-state meters for residential and small commercial customers with Itron.

At present, more than 2,500 automated meters have been installed in difficult-to-read sites and in new developments. The additional 8,200 meters will (i) be installed in other difficult-to-access areas, i.e. this

APPROVED: _____

Blair King, City Manager

will replace the window card system, (ii) replace problematic mechanical "MX" meters (approximately 900), and (iii) be used to automate one complete meter reading route.

Staff recommends awarding the installation of 8,200 automated residential electric meters to Republic ITS of Novato, California.

FISCAL IMPACT: Installation cost is \$88,068 (\$10.74 per meter).

FUNDING: Fiscal Year 2008-09 Budget Account No. 161000.
